Mobile App Development — Starter Package

$1,500 – $4,000

A solid entry-level package for businesses that need a functional, user-friendly mobile app built for both iOS and Android.

Includes:

• Custom UI/UX design (3–5 screens)

• Core feature development (login, dashboard, basic features)

• Cross-platform build (Flutter or React Native)

• API integration (1–2 endpoints)

• Basic admin panel setup

• App testing & performance optimization

• Deployment assistance (App Store & Google Play)

• 14-day post-launch support
